Cooper Bussmann changes label of former G.E.'s BS portfolio

Dear Customer,

As we have informed you earlier this year, *Cooper Bussmann* acquired the G.E. British Standard portfolio. Now (in August 2012) they have started changing the label of the products. Please find bellow the new label of a Red Spot fuse holder. This is the first product with the new label, other products, like other *Red Spot* and *Safeclip* fuse holders will follow.

They have also changed the Country of Origin from Poland back to United Kingdom.

Cooper Bussmann RS20H/W, former G.E. RS20H/W.

With Kind Regards
L. Weutscheck
